On April 28, the Iwate Prefecture International Linear Collider Promotion Council (Chairman: Kunihisa Yamura, Chairman of the Iwate Chamber of Commerce and Industry) held a lecture on the ILC. 780 joined, including online participants.

At the lecture, Professor Shinichiro Michizono of the High Energy Accelerator Research Organization, Atsuto Suzuki, President of Iwate Prefectural University/President of the Tohoku ILC Project Development Center, and ILC Steering Panel Chairman, Professor Satoru Yamashita of the International Center for Elementary Particle Physics, the University of Tokyo, gave lectures on the activities of the ILC International Development Team which aims to establish the ILC Preparatory Research Institute. Other topics included the efforts of the

THE KITAKAMI TIMES

The Kitakami Times is an online English publication that is part of a local effort to spread information on the Kitakami site, which is the candidate site for the construction of the ILC. English speakers from Ichinoseki, Oshu, Ofunato and Morioka, who work in international promotion, regularly post articles. Please take a look.
